DNN Hyperparameters

DNN hyperparameters	Value
Number of hidden layers	2
Number of neurons in each hidden layer	6
Number of neurons in input layer	11
Number of neurons in output layer	1
Activation function in each hidden layer	relu
Activation function in output layer	sigmoid
Initialization mode	uniform
Optimizer	adam
Loss function	binary_crossentropy
Dropout rate	0.01
Batch size	26
Number of epochs	100
